

WELCOME

Welcome to our vinery!

150 years – we celebrate the namesake of the vinery and our great-grandfather. Vision and enjoyment of vine! What the vinery Brüder Dr. Becker is known and celebrated for, began in the 19th century as the “Natural Wine” pioneer in Ludwigshöhe in Rheinhessen. The vinery of the builder Franz Becker was the foundation for the development of the vinery Brüder Dr. Becker. His sons Dr. Johann Becker and Dr. Jakob Becker were deeply rooted in the “terroir” of Ludwigshöhe and were focused on the expansion on the vinery, while working on their main jobs.

We, Hans Müller & Lotte Pfeffer-Müller, continue with excitement, what our ancestors began in the middle of the 19th century here in Ludwigshöhe: Producing wines with the highest quality, with experience and intuition. Organic viticulture since 1978 and the biodynamic work are our tools, the ground and the vines are our capital.

As a part of the VDP.Verein Deutscher Prädikatsweingüter we keep on developing the quality according to the VDP.Classification. Since years the trait press always counts our wines to the best of Germany and confirm us pleasure of the highest class.

We are looking forward to your visit! Hans Müller & Lotte Pfeffer-Müller
