

VINERY

# The decision to become a winemaker was a question of the lifestyle.

Our vinery with 11ha vineyard area is located in Ludwigshöhe in between Mainz and Worms in Rheinhessen. The vines are growing in the south east slopes of the Rhine terrace on Loess and limestone and in the rhinevalley on gravel and sand of the old bed of the Rhine. We love and maintain the regional traditional grape variety Riesling – the queen of the white wines, Silvaner – the ideal food pairing and the speciality of Rheinhessen Scheurebe with its distinct aromatics. The blue Pinot Noir fascinates us with its variety. With Hans Müller start at the vinery, the Pinot Noir was planted in our vinery and is the foundation for our red wine range.

The “natural wine” thought of our great-grandfathers was developed further by us to making organic premium wines. About 40 years ago our parents made the decision in this direction. We are proud to be pioneers of organic viticulture and the first VDP-winery with an organic certification.
