

PEOPLE

The connection with each other, the dependency from each other and the joy together – that is our life. We love to share it and gift it with our wines.

The men of the family Becker founded the vinery, the women continued the tradition.

Misses Maria Eckhard-Becker and our parents Hanni (born as Eckhard) and Helmut Pfeffer lay the fundamentals for the development of quality, the admission to the VDP, die Prädikatsweingüter and the organic viticulture. Today we – Lotte Pfeffer-Müller and Hans Müller – work with a small well trained core team all year long.

Our Seasonal helpers from Poland support us in the vinery since more than 20 years, additionally we have students and pupils, from our circle of friends and family. As an apprenticing company we love passing on our experience and the values of organic winemaking.
